The intersection of the above two sets is LanCo voters who are registered Libertarian AND have had any connection with the LP. That set has 1,053 members. These obviously should be the best prospects to become LPLC members.

The union of the first two sets is the is LanCo voters who are either registered Libertarian OR have had some connection with the LP. That set has 3,601 members. These are the people whom we should invite to social events and have on the "newsletter list."

Most of these people are concentrated in the area of LanCO north of Lancaster and west of Ephrata. The single densest concentration is in Lancaster City. Secondary hot spots are in E-town, Mount Joy and Lititz.
